

# 1990 Gulfstream IV

**Serial Number: 1139**

**Registration: N134BR**

**Airframe TT: 5,279**

**Landings: 2,450**

This exquisitely appointed fourteen passenger aircraft is currently the lowest time GIV readily available in the marketplace. No expense was spared when outfitting this opulent yet understated interior. The high-gloss Curly Eye and Birds Eye Maple veneer cabinetry complements the contoured Aeristo Amazilia leather seats and polished almond gold-plated fixtures. This GIVSP-style interior is fireblocked and fully STC'd. The entire interior was replaced during the refurbishment and includes a super-soundproofing kit, underfloor heating pads and the latest low-maintenance LED lighting. The modern, lightweight interior affords improved payload / range capability. The galley is optimized for maximum storage and work space. The avionics, communications and entertainment systems are all state-of-the-art and comprise components such as triple independent GPS's, dual channel Iridium satellite 'phone with two wired and two wireless handsets, two Boland 20" bulkhead monitors and three 15" Rosen monitors. The custom cabin layout sleeps six comfortably and is exceptionally quiet in flight.
